CKB

WHY CKB SHOWER DOORS?

There are many good reasons for choosing us:

TEMPERED SAFETY GLASS

CKB permanently logo's our glass products used in safety glazing applications to indicate that we meet the requirements of SGCC and ANSI.

EASY INSTALLATION

CKB designs easy-to-install shower doors and enclosures to enhance any bathroom your needs.

BEARING ROLLER SYSTEM

Sealed stainless steel ball bearing rollers make the CKB shower doors durable, and provide quiet sliding action.

3 YEAR WARRANTY

For a period of 36 months, CKB warrants any manufacturer defects in materials, workmanship and finished under normal use.

ANODIZED FINISH

CKB shower door frame is made of anodized aluminum, which provides a durable, non-toxic, moisture resistant finish and ease of maintenance.

ACRYLIC SHOWER BASES

Why choose acrylic shower bases?

Acrylic shower base is today one of the most popular options in every bathroom. Acrylic shower base is shower enclosure that prevents any kind of water leakage or spillage from the bathroom shower floor. Advantages of acrylic shower base include:

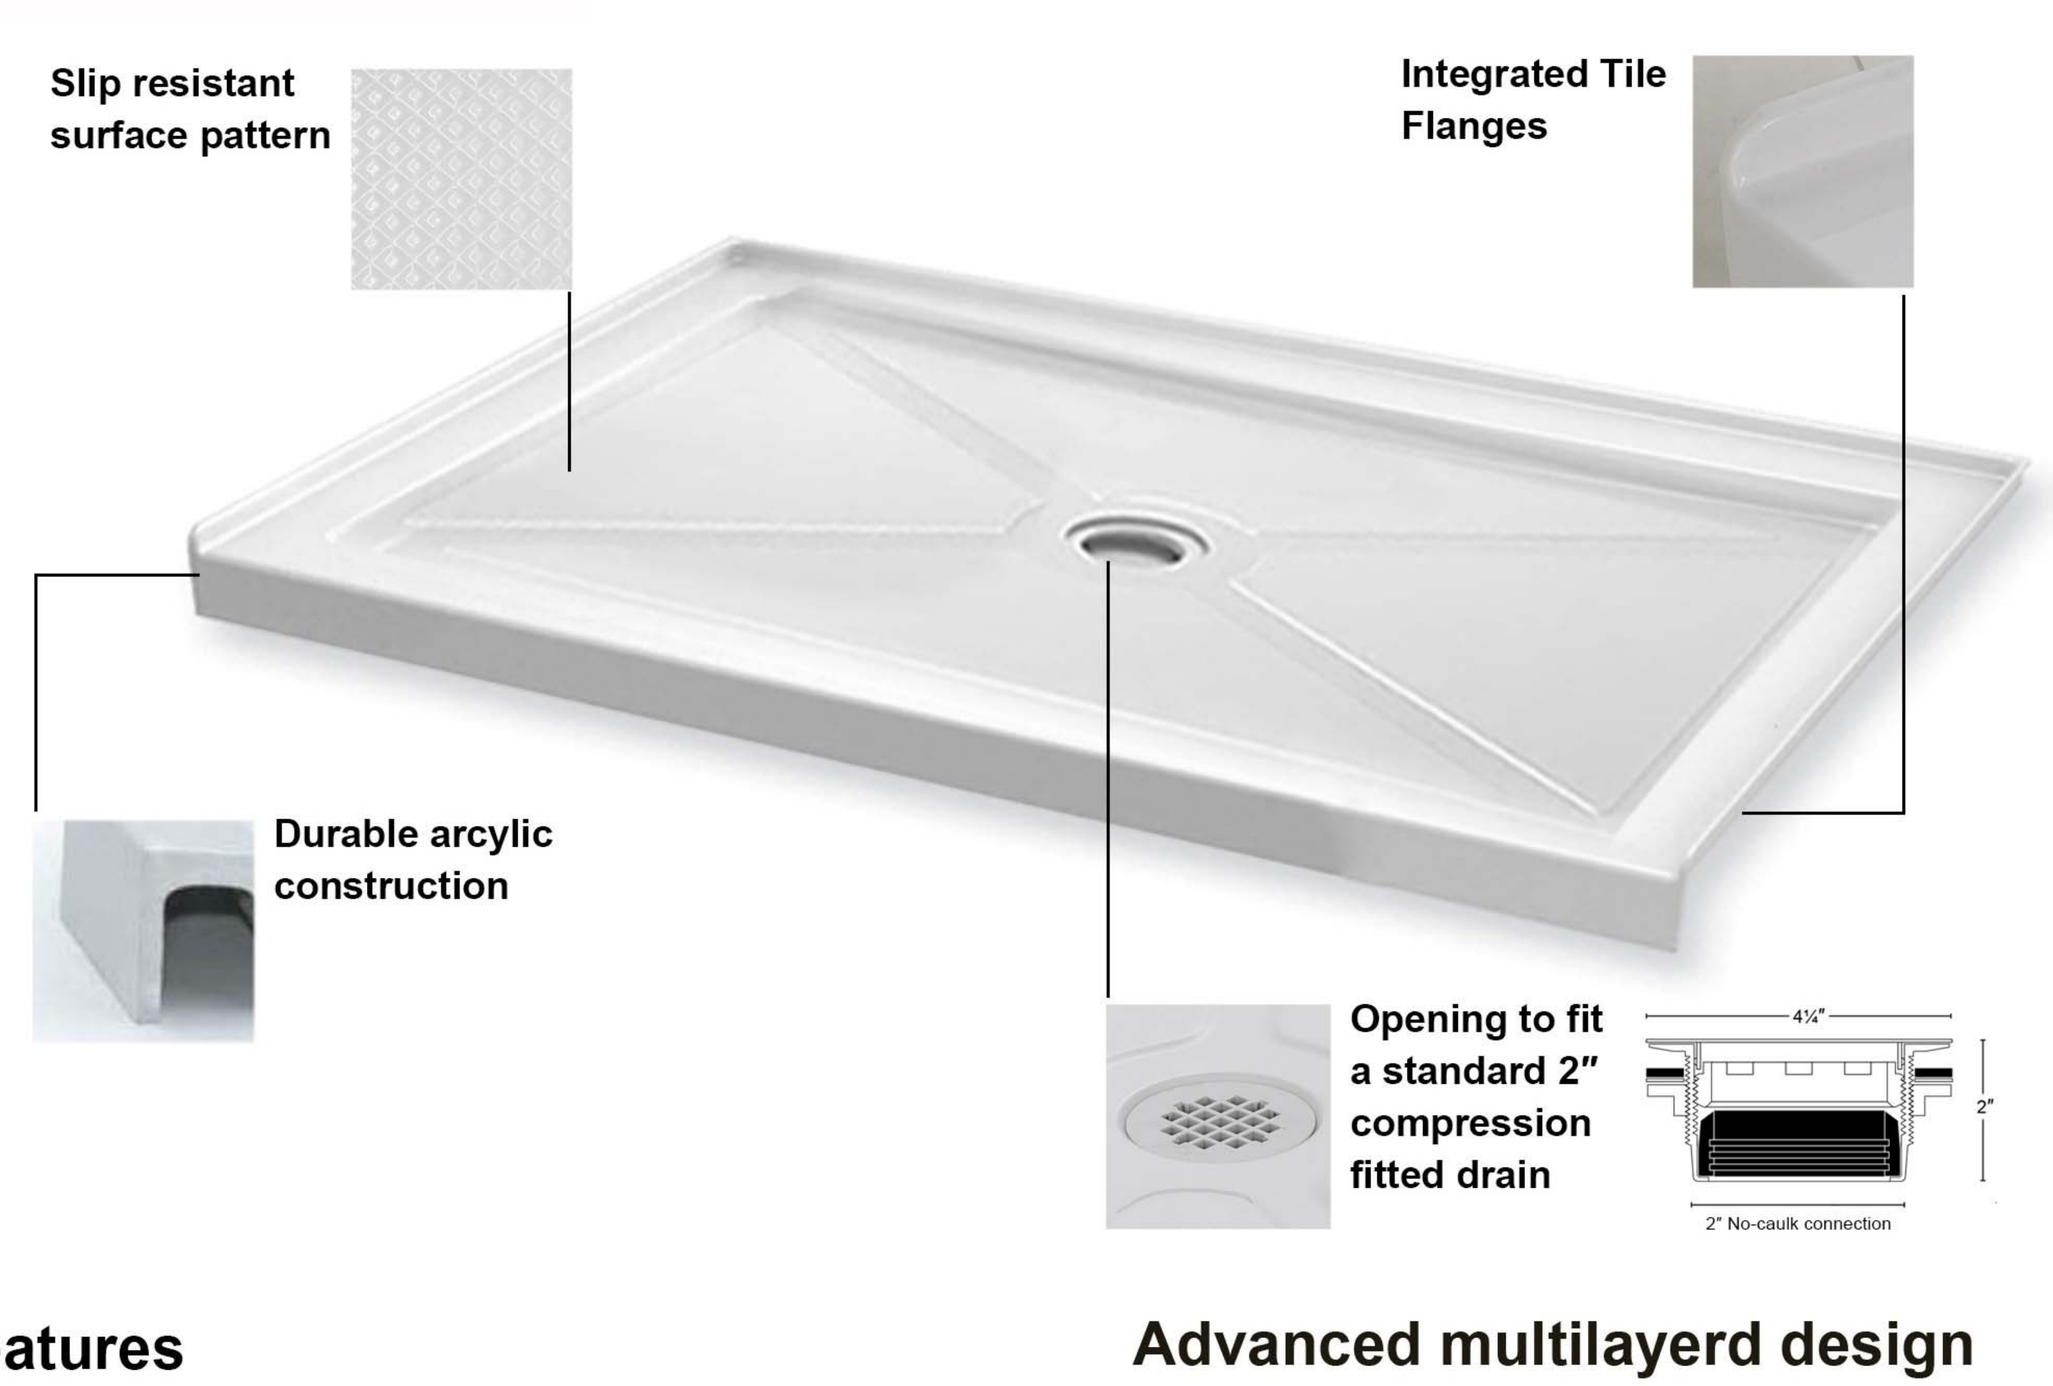
Durability– one of the most important as well as preferred criteria in acrylic shower base.

Low maintenance – you can just wipe the base down with soap and water.

Waterproof – acrylic is non-porous so you don't have to be concerned about waterproofing the base because it's already waterproofed.

Stays warm – Acrylic stays warm to the touch so you don't have the shock of your feet touching a cold material when you enter the shower.

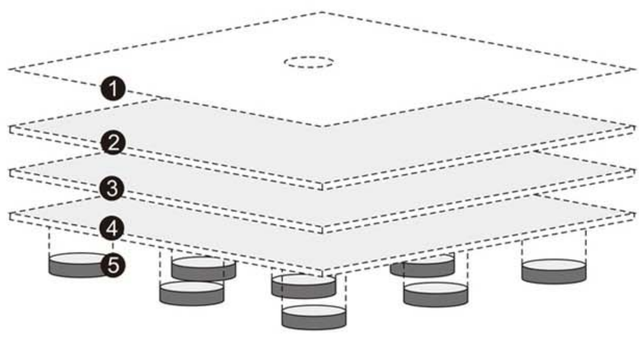
More cost effective than a tile, marble, or solid surface shower base – Since these bases are manufactured in larger quantities they will usually cost less than custom tile showers or solid surface units.



Features

- High quality scratch and stain resistant acrylic
- Low-threshold design for easy entry and exit
- Slip-resistant textured floor for safe showering
- CUPC classified certification

Advanced multilayerd design



❶ High gloss white acrylic with slip resistant texture

❷ Fiberglass reinforcement

❸ 3/8" Plywood

❹ Fiberglass reinforcement

❺ Structural support foundation
